The surveys we send you are important tools to help us track your progress and identify any issues. They are also used for data collection to ensure accurate statistics are generated to reflect Dr Thyer's post-operative outcomes.

We will discuss your erectile function and bladder control with you at your next phone or face to face consult, but should you have any questions, concerns, or require further interventions, please email our clinic nurse Francesca: francesca@thyerurology.com.au

We thank you for taking the time to complete the survey.
